## ● PROFESSIONAL PROFILE

Results-driven Senior Software Engineer with over 5 years of experience in designing and implementing scalable software solutions. Proficient in Python, Java, and JavaScript, with a strong background in database management using Sqlite. Proven track record of leading engineering teams at top tech companies, delivering high-quality products that meet user needs and drive business success.

## ● EXPERTISE

|        |                      |                 |
|--------|----------------------|-----------------|
| Python | Java                 | JavaScript      |
| Sqlite | Software Development | Team Leadership |

## ● PROFESSIONAL EXPERIENCE

### ■ Senior Software Engineer

Meta | June 2021 - Present

- Led a team of engineers to develop a real-time data processing application that improved system performance by 30%.
- Collaborated with cross-functional teams to define and implement new features based on user feedback, enhancing user satisfaction.

### ■ Senior Software Engineer

Google | January 2019 - May 2021

- Designed and optimized backend services for high-traffic applications, resulting in a 25% reduction in response time.
- Mentored junior engineers, fostering a culture of continuous learning and innovation within the team.

### ■ Senior Software Engineer

OpenAI | July 2017 - December 2018

- Contributed to the development of AI-driven applications, increasing processing efficiency by 40%.
- Implemented best practices in coding and testing, resulting in a 50% decrease in production bugs.

## ● EDUCATION

---

**Bachelor of Science in Computer Science** — Massachusetts Institute of Technology (MIT)  
(2017)
